For **Applied Competitions** all images shall comply with the following definitions:-

The subject will normally fill the full frame. Appropriate lighting may be used to enhance the subject but should not add pictorial content. Entries should be accurately titled.

Natural History Depicts untamed animals and uncultivated plants in a natural habitat and all natural phenomena. The accurate record of the subject

and natural environment is the prime factor. Evidence of man, his manipulation of his environment in any part of the picture is undesirable and should be avoided, except where a species naturally interacts with man or his environment. After satisfying the above requirements every effort should be made to use the highest level of artistic skill in all nature photographs. Photographs of cultivated plants, floral arrangements, domestic and captive or controlled animals, mounted specimens, museum groups or man and his specialised environment are NOT acceptable. Entries should be accurately titled.

Competition rules and any amendments will be published on the clubs web site.

All images entered into an Applied section will be scrutinised by the Competition Secretary or his delegated representatives to ensure that the image meets the criteria for entry into the Applied section. Though he/she will always consult with senior members of the club before rejecting an image. If you would like guidance on the acceptability of an image, please submit it at least one week earlier than the normal hand in date and request advice.
